

System Integrator 2016 is the latest version of D-Tools' award-winning software platform. Building new functionality on the architecture of the System Integrator platform as well as expanding D-Tools' Cloud infrastructure, SI 2016 makes it faster and easier than ever to perform key functions of an integrator's business — estimation, system design, and project management.

SI 2016 offers improvements in key functional areas of the solution, including data integration and project management, QuickBooks and third-party integrations, purchasing and change order management, mobile connectivity, as well as overall productivity enhancements. The application delivers a powerful yet easy to use solution that provides a positive impact on an integrator's business.

New Features include:

- **SupplyStream Data Integration –**
 - Search SupplyStream Product Catalog via D-Tools Data Library
 - SupplyStream pricing and availability information (*requires SupplyStream account*)
- **QuickBooks Online Integration –**
 - Sync D-Tools Product Catalog
 - Send Estimates and Purchase Orders to QB Online
 - Sync Vendors when creating items in QB Online
- **Purchase Orders –**
 - Send Purchase Order requests to selected vendors
- **Tasks and Scheduling –**
 - Install Task and Service Order enhancements
 - New Timeline Calendar View
 - Mobile Install Enhancements
- **Dynamic Price Calculator –**
 - Allows for calculating price from items and labor in a project (*i.e shipping, travel costs*)
- **XML Export –**
 - Enables ease of integrations with 3rd party systems
- **New Off-page Reference & Diffusion Shapes**
